

JOB TITLE: Skilled Assistant Electricians

MAIN DUTIES AND RESPONSIBILITIES:

Skilled Assistant Electricians will be required to:

1. Perform and oversee manual work for all phases of electrical projects, ensuring that specifications are being followed, and work is proceeding on schedule and within budget;
2. Assemble, install, commission, maintain and test electrical or electronic wiring, equipment, appliances, apparatus, and fixtures, using hand tools and power tools;
3. Verify equipment to be used according to the job card, client exigencies and system limitations;
4. Prepare and submit required reporting paperwork/certification work/documentation on electrical systems;
5. Serve as Team Leader, by planning and scheduling work on assigned site, coordinating and monitoring work among site team members, ensuring required equipment, materials and tools required for the job are available and that company property assigned to the team is used appropriately, well taken care of and accounted for.

NECESSARY SKILLS, QUALIFICATIONS AND EXPERIENCE:

- Able to communicate clearly in English or Maltese;
- Minimum of 5 years experience in similar role;
- Hands-on experience working with power tools;
- Basic literacy and numeracy (for daily report writing);
- Able to work on own initiative and work as part of a team;
- Must have own means of transport and a clean police conduct;

For the purpose of meeting the requirements of this role, the employee will be required to operate power tools, lift and or carry equipment and tools, work from ladders, scaffolds and roofs, working in cramped workspace and outdoors subjected to weather conditions. As the employee may be required to drive a Company vehicle, must be in possession of a valid driving license

Interested applicants are to submit their cv to info@dli.com.mt
